

Got Allergies?

ENVIROSHIELD® Allergy Air Filter Exclusive 5 Stage Filtration

- Yellow layer traps lint and pet hair while allowing adequate air-flow
- White layer grabs smaller dust and prohibits larger particles migrating through the air exit side of the filter
- Blue fibers can dramatically reduce microscopic particles in the air
- Enviroshield's® "Dust Lock Tackifier" secures many nuisance allergens and increases the overall filter efficiency
(Review Enviroshield® Allergy Air Filter efficiency test reports)
- The Enviroshield® Allergy Air Filter utilizes anti-microbial agents in every fiber that can eliminate a wide variety of airborne irritants

Anti-Microbial - Economical - Protection
